1. About Us

Shielded Networks is an IT and cybersecurity services company. We specialize in delivering enterprise-grade information technology and cyber security services, helping organizations across the region protect their digital infrastructure, data, and operations against evolving cyber threats, modernize IT infrastructure, and accelerate digital transformation through industry-leading technologies and expert professional services.

Our leadership brings 18+ years of hands-on IT and cybersecurity experience, holding CISSP, CCSP, and dual CCIE certifications, with deep tenure delivering security outcomes across the Gulf region. We operate with a dedicated technical delivery team, enabling us to combine senior-level consulting expertise with cost-effective, high-quality execution.

Legal Name	Shielded Networks FZCO
Trade License No.	74395
Founded	2025
Headquarters	Building A1, Dubai Digital Park, Dubai Silicon Oasis, Dubai, United Arab Emirates
Delivery Team	UAE and Pakistan-based technical delivery team

Email	info@shieldednetworks.com

2. Mission & Vision

Our Mission

To deliver reliable, high-quality cybersecurity and IT services that empower organizations to operate securely and confidently in an increasingly complex threat landscape.

Our Vision

To be a trusted cybersecurity and IT partner of choice across the UAE and wider Gulf region, recognized for technical excellence, integrity, and measurable client impact.

Our Values

- Integrity — we operate with transparency and accountability in every engagement
- Technical Excellence — certified expertise applied to real-world security challenges
- Client Partnership — we work as an extension of our clients' teams, not just a vendor
- Continuous Improvement — staying ahead of evolving threats and technologies

3. Leadership & Expertise

Shielded Networks is led by a founder with 18+ years of hands-on cybersecurity experience, holding CISSP, CCSP, and dual CCIE certifications, alongside extensive tenure delivering security outcomes across the Gulf region.

Leadership Profile

Maqsood Alam — Founder, Managing Director
CISSP | CCSP | Dual CCIE Certified
18+ years of IT & cybersecurity experience
Extensive Gulf region delivery experience (UAE, KSA)

Our technical delivery team brings deep hands-on capability across penetration testing, network security, and security architecture — enabling Shielded Networks to deliver senior-level consulting expertise with efficient, high-quality execution.

4. Core Services

We provide a comprehensive suite of cybersecurity and IT services tailored to the needs of enterprises across industries.

Security Architecture & Advisory

Strategic guidance on security posture, technology selection, and long-term security roadmaps.

Network Infrastructure

Design, implementation of network architecture across on-premises and hybrid environments.

- IT Networking (Enterprise & Campus)
- Wi-Fi Access Points (Indoor/Outdoor)
- Secure SD-WAN
- SD-Branch

OT Networking

- Ruggedized Access Points
- Industrial Switches
- Seamless Mobility & Roaming
- OT Networking (Industrial & Operational Technology)

Network Security

Design, implementation, and hardening of secure network architecture across on-premises and hybrid environments.

- Next-gen firewall (NGFW)
- NDR - Network detection and response
- Unified SASE
- OT Security
- Protected Browser
- Zero trust network access (ZTNA)
- DNS Protection

Endpoint Security

- Endpoint protection (Next-Gen antivirus)
- EDR - Endpoint detection and response
- MDR – Managed Detection and Response
- Servers' protection
- Mobile security

Email Security

Protection against phishing, business email compromise, and other email-borne threats.

- Email Phishing/malware protection
- Email Monitoring System
- Employee awareness training

Vulnerability Assessment & Penetration Testing (VAPT)

Comprehensive security testing of networks, applications, and infrastructure to identify and remediate vulnerabilities before attackers can exploit them.

Managed Security Services (MSSP) \ Security Operations

Ongoing monitoring, detection, and response services to keep client environments secure around the clock.

- XDR - Extended detection and response
- XDR with Next-Gen SIEM
- SOC 24/7
- Emergency Incident Response
- Incident Response Services

Professional Services

- Consulting
- Solution Design
- Deployment & Implementation
- Health Checks
- System Optimization
- Annual Maintenance Contracts (AMC)
- Technical Support
- Training & Knowledge Transfer

Cloud & Productivity

- Microsoft 365 Services
- Azure Cloud Services
- Identity & Access Management
- Collaboration Solutions
- Licensing & Subscription Management

Cloud Security

Security assessments and architecture for Azure and multi-cloud environments, ensuring secure cloud adoption.

Governance, Risk & Compliance (GRC)

Support for regulatory compliance, risk management frameworks, and security governance programs.

5. Why Choose Us

- Certified expertise — CISSP, CCSP, and dual CCIE-certified leadership with 18+ years of experience
- Proven Gulf region experiences across UAE and KSA markets
- Dedicated, in-house technical delivery team
- Strong vendor partnerships enabling best-fit, vendor-neutral recommendations
- Responsive, consultative engagement model tailored to client needs
- Competitive pricing through an efficient regional delivery model
- Vendor-neutral consulting

- Reliable post-sales support
- Customer-focused engagement

6. Technology Partnerships

We work alongside leading technology vendors to design and deliver best-fit solutions for our clients:

Technology Partner	Solution Area
 Security made simple.	○ Endpoint Security ○ Next Gen Firewall ○ Email Security ○ SIEM MDR Security
	○ Network Security ○ Secure Networking ○ OT Security ○ SASE
	○ Microsoft 365 ○ Azure & Security ○ Cloud security & productivity platforms
	○ Exposure Management ○ Penetration testing ○ Red teaming exercise ○ Vulnerability Management ○ Security Operations ○ Exposure Management ○ Attack Surface Management ○ Cloud-Native Application Protection ○ Application Security
	○ Risk-based vulnerability management ○ Vulnerability Operations Center (VOC)
	○ Enterprise Networking & Infrastructure technology
	○ IT Networking (Enterprise & Campus) ○ Wi-Fi Access Points (Indoor/Outdoor) ○ ICX® Ethernet Switches ○ Unified Cloud Management ○ Flexible Controllers ○ OT Networking (Industrial & Operational Technology) ○ Ruggedized Access Points ○ Industrial ICX® Switches ○ Seamless Mobility & Roaming
	○ Servers, Storage & Infrastructure solutions

	○ Backup, Recovery, Disaster Recovery & Business Continuity
	○ Document & content security solutions
	○ Governance, Risk & Compliance (GRC)

7. Industries We Serve

- Financial Services
- Government & Public Sector
- Healthcare
- Retail & E-commerce
- Energy & Utilities
- Telecommunications
- Real Estate & Construction
- Professional Services

8. Certifications & Compliance

Our team holds globally recognized cybersecurity certifications, ensuring our services align with international standards and best practices.

- CISSP — ISC² Certified Information Systems Security Professional
- CCSP — ISC² Certified Cloud Security Professional
- Cisco — CCIE Security
- Cisco — CCIE Enterprise
- Cisco — CCNP Enterprise
- Cisco — Specialist (Security Core, Enterprise Core, Design, Data Center, Enterprise Advanced Infrastructure Implementation)
- Fortinet — (Network Security Architect – NSE7
- Fortinet — Certified Associate -FCA, Fortinet Certified Fundamentals - FCA
- Sophos — Certified Engineer
- Sophos — Architect
- Sophos — Technician
- Rapid7 — RTSP - Exposure Command Certification
- Rapid7 — RTSP - Incident Command Certification
- Rapid7 — RTSP - InsightVM Product Certification
- Rapid7 — RTSP - Surface Command Certification
